Sample Description:

This sample expires two (2) years after the date printed; once expired, it is no longer a valid representation of color and finish.

We've prepared your stain and/or paint sample(s) to assist you in selecting the exterior/interior stain and/or paint color(s) for your new log home. Please be advised that the sample(s) are intended to be used for an "approximate" color representation of your final color(s) selection(s) and not an exact color match. Due to the nature of staining and/or painting wood, plus a variety of other variables outlined below, we cannot guarantee an exact color match to the sample provided.

Variables may include wood species, method of application, individual that applies the finish, weather conditions, time of day of application and/or paint, sheen selection, etc. This sample is to help you gain a general understanding of the color and tone of the finish represented. Age, exposure to light, and differences in natural wood characteristics (grain, texture, and color) will all affect the outcome of a finished product. As a representation of the wood and color, this sample is not intended to guarantee a uniform match.

Please know that we make every effort to provide a close color match to your sample.

WoodHaven Log & Lumber currently uses a "flood coater" to apply the stain and at the same time back brushing the material as it goes through allowing each piece to be visibly inspected. Depending on the coats applied this procedure is done 1-3 times.

Please review these samples closely and use this form to either accept or decline (individually or all) samples. In addition, using a permanent marker please sign, date and write "accepted" or "declined" on the samples and mail **all** samples back to WoodHaven Log & Lumber with this completed form.

I have read and understand the terms and conditions of this form. I understand that the color represented on the sample provided may not be an exact color likeness with the final product and that I will accept the final product as my color selection.
